

Specific for greens. Long-lasting quality and stability

FEATURES

Uses	Golf, landscaping, croquet
Colour	Light green
Leaf width	Very thin
Dormancy	Colour loss under 12°C
Soils	Sandy and sandy-loamy soils
Growth	Fast and aggressive
Erosion / Trampling	High tolerance
Damages recovery	High tolerance
Heat	Very high tolerance
Cold	Medium tolerance
Shade	Low tolerance
Drought	Very high resistance
Salinity	Very high tolerance
Water needs	Low
Mowing	High frequency. Between 2,5 and 3,5 mm
Weeds	Low weeds impact with short mowing and high density
Pests	High resistance
Diseases	High resistance
Fertilizers	Low needs
